Summer School & English language Immersion Programme

About Ireland 360° Immersion Academy

Ireland 360° Immersion Academy is based in the heart of Ireland in the beautiful countryside. It is built on the belief that the most powerful learning happens through lived experience. We create meaningful global connections by combining language, STEM, creativity and culture in immersive programmes across Ireland's most iconic regions.

Founded by experienced educators with over 40 years of combined international expertise, Ireland 360° brings a global perspective and proven leadership to every programme. Our team has led international mobility initiatives and cross-border partnerships worldwide.

We provide a high-quality, people-first platform that connects Irish and international students, teachers and organisations — creating transformative experiences that broaden horizons, build confidence and foster lasting global relationships.

Language Learning Highlights

Communicative English classes in small groups, qualified native teachers with a focus on developing speaking, listening, confidence, and fluency. Lessons use project-based learning connected to culture and everyday life to make English practical, engaging, and meaningful.

Culture & Activities

Students are immersed in Irish culture through a rich programme including traditional music, dance, and storytelling, GAA sports such as hurling and Gaelic football, local history and heritage tours, and creative arts and drama workshops. The experience is enhanced with visits to Irish towns, castles, and cultural landmarks, as well as weekend excursions to Dublin, Galway, Kilkenny, and the Cliffs of Moher.

STEM Learning

STEM learning allows students to develop scientific, technological, engineering and mathematical skills while actively using a new language in meaningful, real-world situations. Through hands-on projects, problem-solving tasks and collaborative challenges, students learn subject-specific vocabulary naturally while improving communication, critical thinking and creativity. This integrated approach strengthens both language proficiency and STEM understanding, making learning more engaging, practical and effective.

TESTIMONIALS

STUDENTS SAY:

"Living with an Irish family really helped my English. I felt part of the culture."

"The classes were fun & interactive, and the activities were amazing."

"I made friends from different countries and learned so much about Ireland."

PARENTS SAY:

"An excellent balance of education, care, and cultural experience."

"Our son returned more confident & motivated. A fantastic programme."

TEACHERS AND GROUP LEADERS SAY:

"Extremely well organised, safe, and educational. A perfect language immersion experience."

"The cultural programme really sets this school apart."

"The immersion school coordinators provided an exceptional personal approach, consistently going above and beyond. They were always available and regularly checked in with our groups to ensure everything ran smoothly. "
